

INSTITUTIONAL DISTINCTIVENESS

The institution strongly believes in societal contribution and balanced growth. Hence, the college has come up with an idea of uplifting the unfortunates. As a part of it, the institution is planning to provide Commercial wet Grinders and Sewing Machines to oppressed women in the subsequent year. This act of providing them with a stable income would help them to look at life with the hope for the future. This stride of good deed was initiated with the hope of bringing a change in a smaller way in this big world.

The “Support to Survival “ Project of the institution aims to provide essential resources to economically disadvantaged parents of our students, empowering them to overcome daily challenges and improve their quality of life. The main objective of this project is to bridge the economic gap and enable them to make both ends meet. The project fosters the financial stability of the underprivileged families, ensuring their fulfillment of their basic needs. This initiative is made to encourage Entrepreneurship and Supplementary income to the selected students of the institution. This helping hand of our institution assures a firm platform to the financially marginalized, to face the world with brimming confidence.
