**STUDENT EXIT SURVEY REPORT – (2022-23)**

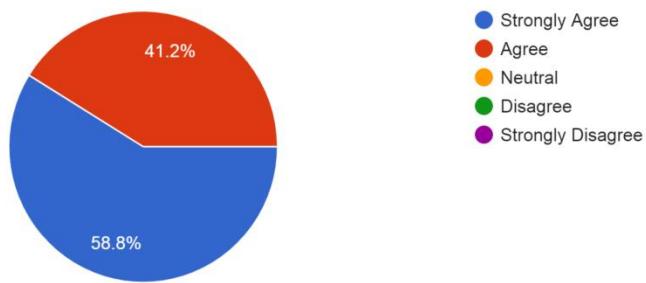

Course Name: B.Sc. Psychology

Course Code: ST1

Batch: 2020-23

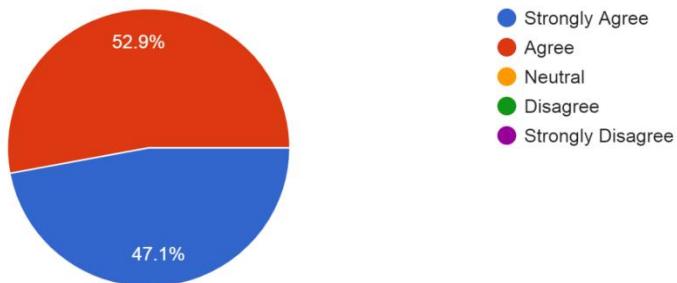

**1. Quality of the Course Content**

34 responses

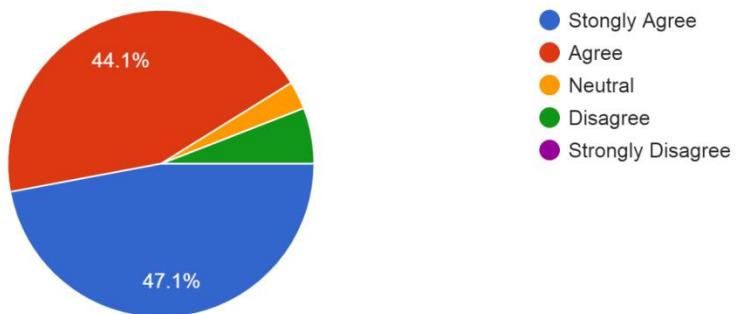

**2. Course Material is relevant to career**

34 responses

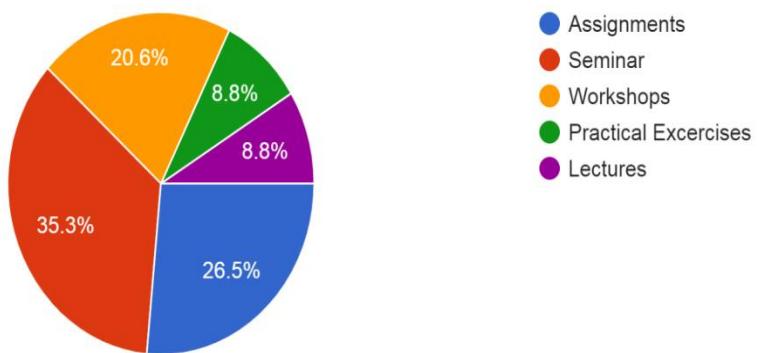

3. The instructor is knowledgeable about the course and presented in a clear way

34 responses

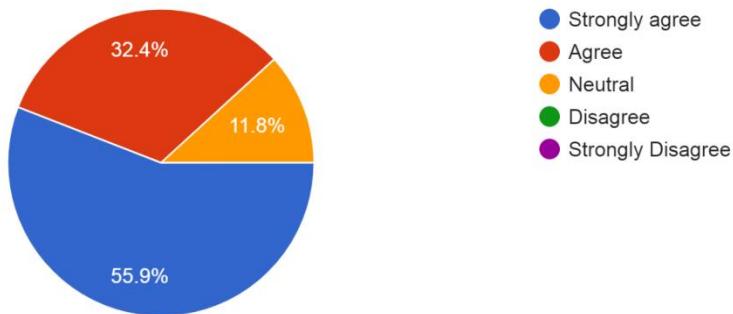

4. Aids/approaches help you in learning the course efficiently

34 responses

5. Practical exposures were explained clearly?

34 responses

6. List the Ideas / Concepts that you found difficult to learn

- Abnormal psychology
- Statistics
- Approaches in Theories
- Nothing like that
- None
- Indian Psychology
- Research
- HRM

7. Your suggestions to remove topics from the course

- Hrm
- Can reduce the some topics in theories of personality
- Human Resources Management
- Indian psychology
- Sanskrit words from Indian Psychology

8. Your suggestions to include new topics into the course.

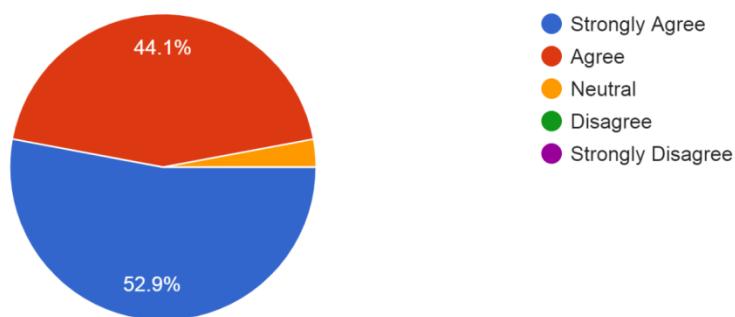

- Cognitive psychology
- Neuropsychology
- Topics of current affairs
- Forensic psychology
- NLP
- Multiple intelligences

- Hypnotism
- Stress

Based on the course outcome, the following are the responses received from the students.

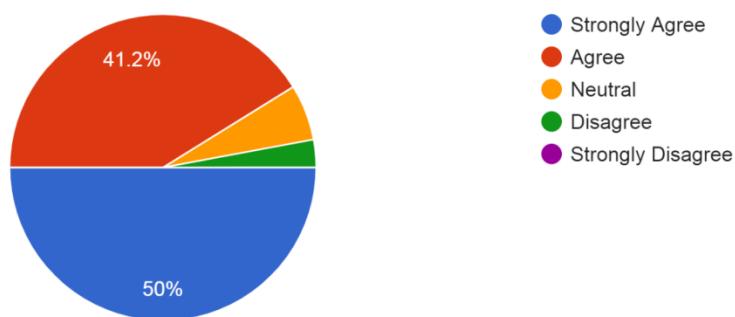

1. Remember the causal factors and therapies in relation to the abnormal behaviour and effectively apply it in practical.

34 responses

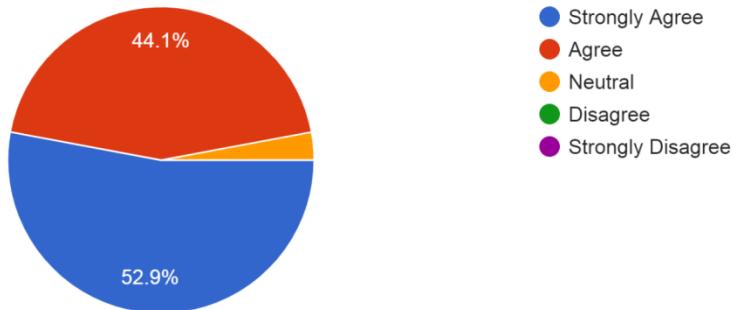

2. Understand the implications of indirect and direct method of research methodology and apply in practical to carryout research work.

34 responses

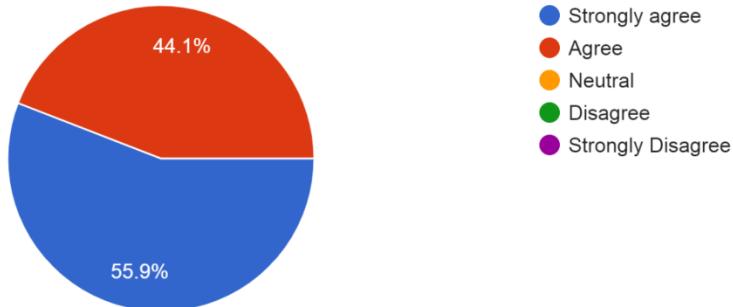

3. Apply the conditions in promoting helping behaviour and develop multi facet skills of the self for the implementation of dynamic decision making using social psychology

34 responses

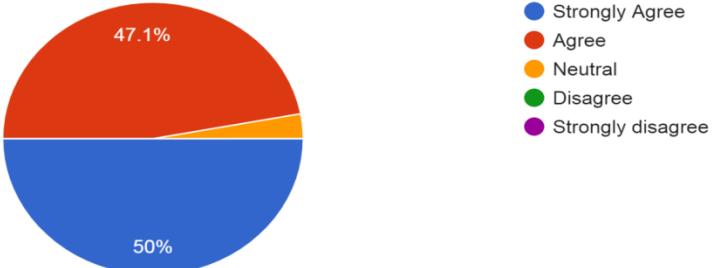

4. Analyze the various models of health behaviour and enhancing coping skills for health promoting strategies in every day life .

34 responses

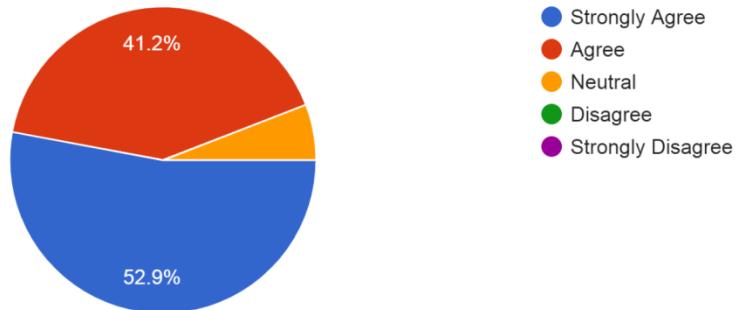

5. Evaluate the methods that are applicable to carryout physical activity and develop skills to promote a good mental health

34 responses

6. Develop the counselling skills, qualities and interpretation of psychological tests and understand the importance of counselling in current...everyday life to maintain harmonious relationships.

### **STUDENT EXIT SURVEY REPORT – (2022-23)**

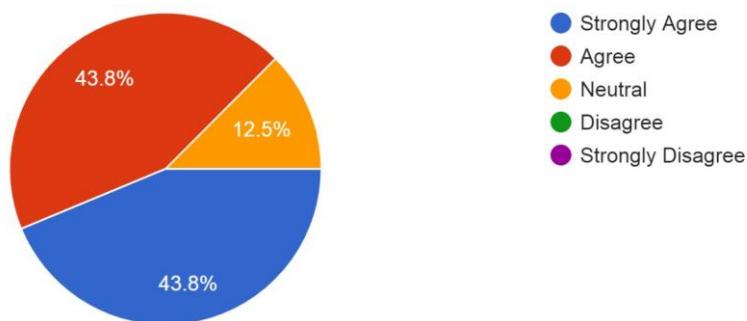

**Course Name: B.Sc. Home Science – Interior Design & Décor**

**Course Code: SK1**

**Batch: 2020-23**

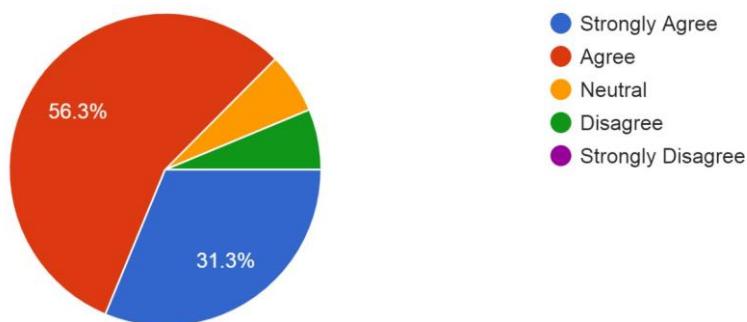

#### **1. Quality of the Course Content**

16 responses

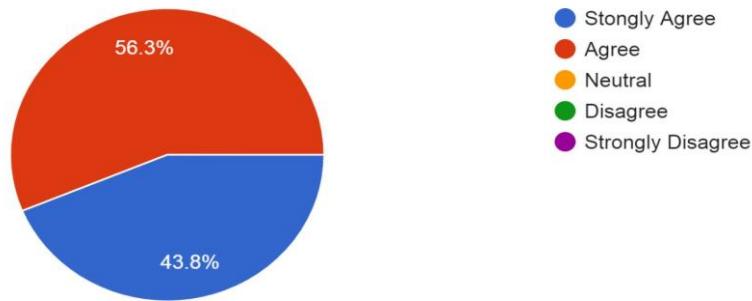

#### **2. Course Material is relevant to career**

16 responses

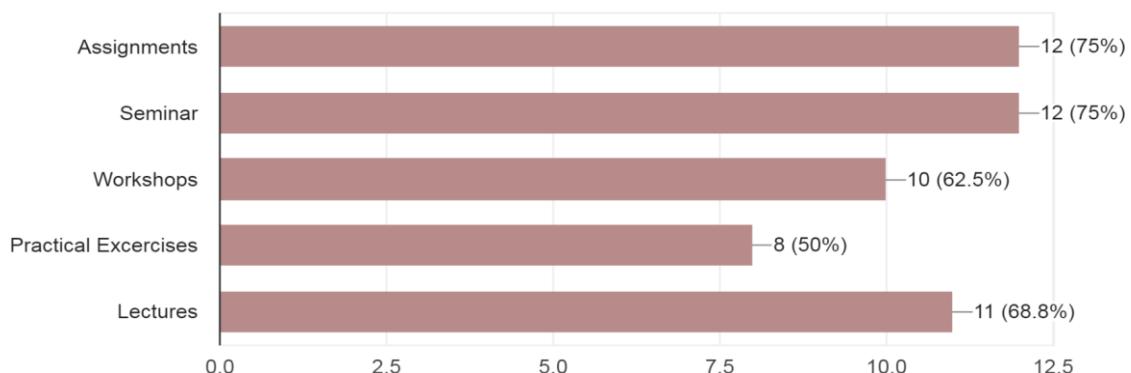

3. The instructor is knowledgeable about the course and presented in a clear way

16 responses

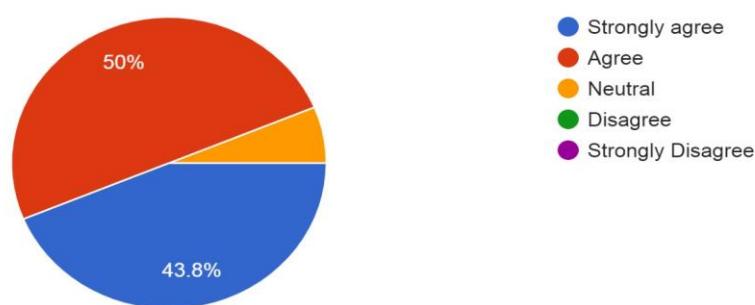

4. Aids/approaches help you in learning the course efficiently

16 responses

5. Practical exposures were explained clearly?

16 responses

## 6. List the Ideas / Concepts that you found difficult to learn

Few students responded that the following topics and subjects found little difficult to learn, they are as follows:

- Food and Nutrition
- Entrepreneurship development
- Human Development

## 7. Your suggestions to remove topics from the course

Few students responded that the following topics and subjects can be removed from the course, they are as follows:

- Human Development

## 8. Your suggestions to include new topics into the course.

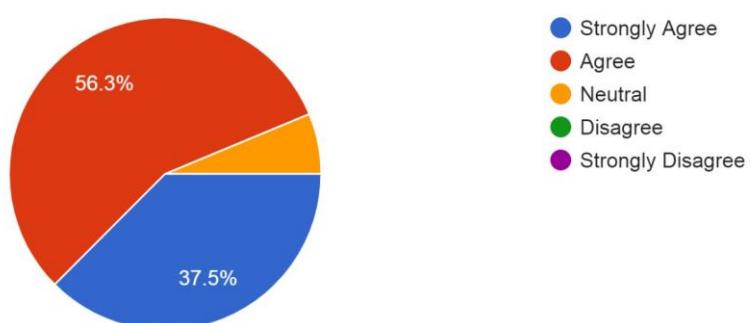

Few students suggested that the following topics can be included in the syllabus, they are as follows:

- I will suggest to you add softwares related subjects like Google SketchUp, vray, hands on materials experience, mini projects.
- Practicals about dimensions of house materials and buildings

## **Based on the course outcome, the following are the responses received from the students.**

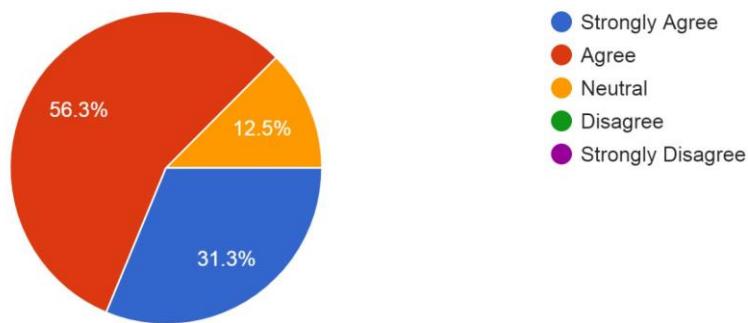

### 1. Identify the opportunities, entrepreneurship skills and most suitable resources for the upliftment of my career goals.

16 responses

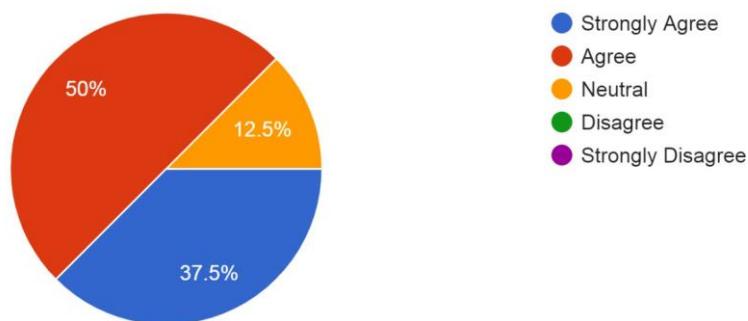

2. Express and communicate my design ideas and skills through various software technology and digital platforms in the work place.

16 responses

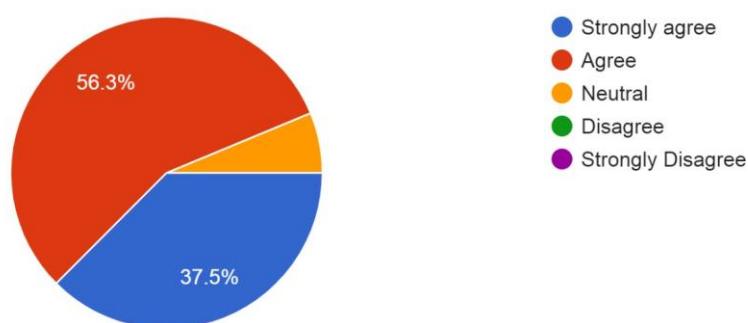

3. Apply the practical knowledge based on the placement requirements.

16 responses

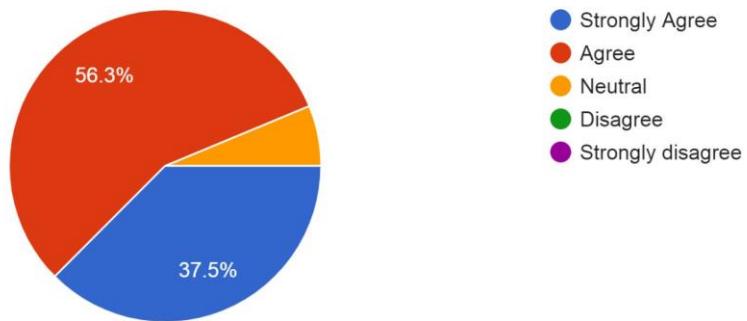

4. Analyze the resources and materials for practical implementation.

16 responses

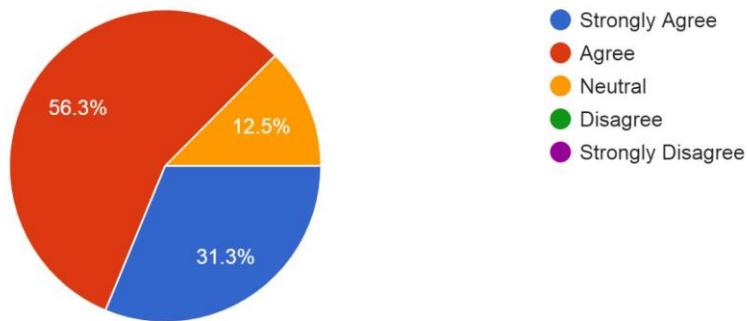

5. Validate the importance and need for sustainable and environment friendly designs in considering the role of art in larger social context

16 responses

6. Predict and Implement practical skills in the aspects of designing the most effective and ergonomical way of living space to enhance physical and mental health of the occupants.

6. Your Suggestions to Include new topics in to the course

Nothing

We can add some more interesting about business which it can deeply explain about how to develop the business in the easiest way through by this generation as well as the technology.

it's very informative course and useful for future career

Excellent

Nothing

Satisfied

Yes

Educational trip

Good

Logistics

Apply basic designs principles

Yes

#### 7. .List of Ideas / Concepts that you found difficult to learn

No concepts are difficult

All were easy

Assessment and seminar

it's very easy subject but in maths we needed to put more effort to study

Not very difficult. Its good

New learning

ideas

Observation and Analysis

Taxation

Mutual fund

#### 8. Your Suggestions to remove topics from the course

No need to remove any kind of topics everything is necessary in the business learning .

No every topic is has some important value. it has their own passion of every subject .

No all topics are very good and interesting

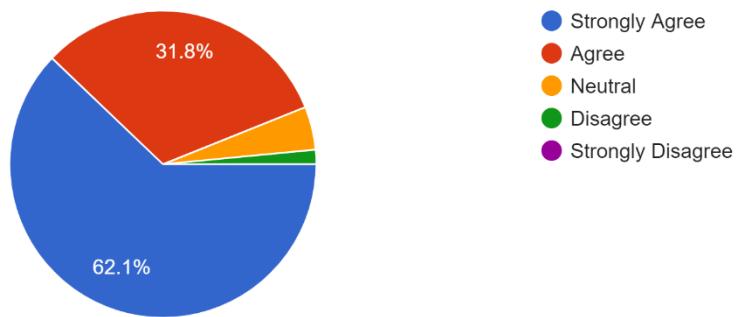

OR

Tax
